Step 1:
Print this page ensuring your printer is set to print the page at 100%. You should find this in "Page Set Up".

Step 2:
Check your print out is accurate by comparing the measurements here with a ruler.

Size Your Finger

Cut around the Finger Gauge Outline. A handy tip is to cellotape the boxed area before cutting it out. Then cut a slit where indicated between the two arrows on the left of the Finger Gauge Outline.

To get an accurate reading - size your finger at the end of the day with warm hands. This is because cold fingers are slimmer and may give an incorrect reading.

Ensure the paper can slide up and down your finger reasonably easily, the width of the signet ring will grip your finger more than the paper! Remember you will have 28 days to return your ring for sizing up or down.

Alternatively if you would prefer to use a plastic finger gauge, we will send one to you. Fill in the Ring Sizer Form found under 'Sizing Your Finger' on our website.
